KO MANUFACTURING INC.

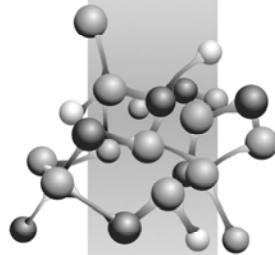

KARPET KLEEN™

PRODUCT NUMBER 3370

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability. When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 10/26/2004

PRODUCT DESCRIPTION:

Karpet Kleen is an industrial carpet cleaner that can be used in both cold or hot extracting equipment, or as a spotter for heavily soiled areas. This powerful formula cuts through tough stains such as grease and oil and is ideal for areas of heavy traffic such as hallways and doorways, restaurants, and commercial businesses. Added enzymes give extra cleaning power for difficult food stains such as sauces, natural oils, pet stains, and juices. A pleasant spearmint fragrance leaves rooms smelling clean and fresh.

INSTRUCTIONS:

For steam extractors, use $\frac{3}{4}$ to 1 ounce per gallon of water.

For cold water extractors, use 1 to 2 ounces per gallon of water.

Extra-heavy soiling or spotting can be pre-soaked with 1:3 dilution of Karpet Kleen with water 15 minutes prior to cleaning.

For additional cleaning power, see KO products Enz-All (#5676) and Natural Solve (#241).

Be sure to try Karpet Kleen on an inconspicuous area of carpet before cleaning to assure color fastness of carpet.

CUSTOMER BENEFITS:

Powerful and effective formula.

Quickly removes soil from heavy traffic areas.

Safe on a variety of carpet types.
