KO MANUFACTURING INC.

TIRE KLEEN™

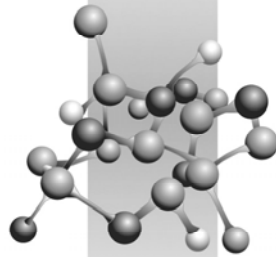

PRODUCT NUMBER 9350

RESEARCH

Through R&D and field testing, KO Chemists combine creativity with technology to bring you products with the performance you require. Using our sophisticated KO lab we continually test new products, existing products, and our manufacturing processes for effectiveness and affordability.

When a new product meets our requirements, it goes to a select group of end-users for real-world evaluation. Only after testing, evaluating, and re-testing is a KO product ready for distribution. We invite you to come and be a part of a winning solution.

Attention: Refer to our Material Safety Data Sheet regarding hazards, personal protection, and disposal of this product.

Techsheet Modified on 10/27/2004

PRODUCT DESCRIPTION:

Tire Kleen is a biodegradable liquid concentrate formulated for cleaning grease and heavy soil loads from whitewalls and tires. The unique blend of complex phosphates, alkaline builders, and non-ionic surfactants provide the optimal level of alkalinity and wetting properties for maximum penetration of soils.

INSTRUCTIONS:

Whitewall tire cleaning: Rinse tires and wheels with cool water. Apply Tire Kleen through applicator at 1 part Tire Kleen to 16 parts water, depending on time of year and soil load. Rinse with cool, fresh water. For best results, inject air into the final applicator.

Suggested dilutions only. Use as a starting point and adjust accordingly for best results.

****Use caution when applying this product to hot wheels during summer months. Polished aluminum wheels could be damaged if not used properly!!!**

CUSTOMER BENEFITS:

- Non-flammable.
- Economical.
- Universal use as wheel, tire, and engine cleaner.
- Biodegradable.
- Rapid removal of soils and grime.
