

BUG-15.04

Bug Remover

DESCRIPTION

Be careful with this stuff, it is HOT and it works! This blend contains alkaline builders, surfactants and solvents designed to infiltrate insect remains and releases them from the vehicles surface. It is dilutable with water and is safe on glass, metal and painted surfaces.

USAGE INSTRUCTIONS

Apply product manually through a wand or mechanically through an arch or bar. Begin application at 25-36:1 (14-20 drops). Adjust as necessary. Allow ample contact time for product to soften and loosen bug residue. In tunnel applications apply product to heavy bug residue areas and let sit. If using a prep gun tend to other areas of the vehicle before rinsing the treated spots. For self-serve begin at 36-48:1 (10-14 drops). Apply with soft water. Avoid letting product dry on surface.

FEATURES

- Safe on glass, metal and painted surfaces
- Great foam and scent
- Softens and lifts bug residue
- Concentrated so it can be diluted

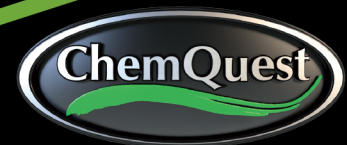

SIZES AVAILABLE

5-gallon pails Code: 10-70119-005
15-gallon drums Code: 10-70119-015
30-gallon drums Code: 10-70119-030
55-gallon drums Code: 10-70119-055

SPECIFICATIONS

COLOR: GREEN
FRAGRANCE: CITRUS
FOAM: GREEN
PH: 13-14

Drop Count (Titration)	Oz/Gal of water	Ratio to 1
11	2.75	46
12	3.00	42
13	3.25	38
14	3.50	36
15	3.75	33
16	4.00	31
