

# PRESOAK X

Acidic Presoak

## DESCRIPTION

When cleaning conditions get tough this is the stuff to use! This product is a low pH hydrofluoric acid based high foaming detergent for use in both soft cloth and touch free washes. It is highly effective at removing window films and eyebrows from windshields, as well as cleaning and brightening aluminum and chrome. This product is designed to remove road film during the seasonal "tough clean" times.

## USAGE INSTRUCTIONS

This should be applied as the first step in a two-step cleaning process. For touch free cleaning apply at 120-200:1 (6-10 drops). For more difficult cleaning conditions slowly increase strength. For friction applications consult your sales representative. Using soft water will improve foam profile and product performance.

## FEATURES

- Concentrated
- Fast acting
- Excellent road film remover
- Versatile application

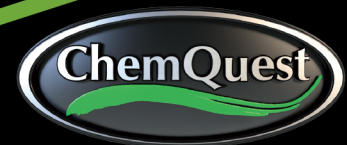

## SIZES AVAILABLE

5-gallon pails Code: 11-13410-005  
55-gallon drums Code: 11-13410-055
